

I completely enjoy listening to XM Satellite Radio and its traffic and weather channels. I told my wife when I first heard about it that there was NO way that I was paying for radio. After using it in her vehicle that came with it, I ordered one for mine within a week. I absolutely love it. My XM has variety that I can't seem to get anywhere else!

I don't believe that my usage of the satellite radio should be up to the National Association of Broadcasters, and for them to dictate what I can listen to is nuts!

I Respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that you demand and deserve.

Thanks You

Chris Cass
